

Air1 is the only local Christian radio station that plays alternative type music and is only listener supported and doesn't have commercials and other forms of advertisement.

If Air1 were not a part of the local community or were displaced by an LPFM broadcaster providing other programming it would adversely affect us by the teen listeners and clean programming in our broadcast area.

It is in the public interest to keep Air1 on the airwaves in order to provide other options for people not just 20 stations of rock music with rowdy DJ's swearing all day long.
